

Labourer Trainee

This opportunity is part of an Indigenous on-the-job training initiative in partnership with Manitoba Hydro.

Labourers assist skilled tradespersons and complete tasks such as site preparation and clean-up, equipment and materials handling, demolition and excavation, and concrete placing.

At PCL, we recognize the strength and value brought forth by diverse backgrounds, perspectives, and experiences. We are also unified by a shared set of core values – honesty, integrity, respect.

We are seeking to hire individuals who share in our core values and will bring fresh perspectives and innovative thinking.

Tasks

- Perform various duties involving lifting, carrying tool use and machinery management.
- Loading and unloading construction materials, and moving material to and from work areas.
- Install and remove concrete forms, scaffolding, ramps, catwalks, and barricades at construction sites.
- Mix, pour and spread materials, such as concrete base materials, including gravel, sand, etc.
- Signal and assist equipment operators in securing attachments to equipment and guide moving equipment.
- Level earth to fine grade specifications using rakes, shovels, and equipment.
- Remove rubble and other debris at construction sites using rakes, shovels, wheelbarrows and other equipment.
- Operate pneumatic hammers, vibrators, and tampers.
- Direct traffic at or near construction sites.

Key Skills & Attributes

- Reading, communication, problem-solving.
- Physical fitness.
- Ability work in high places, outdoors in diverse weather, and various environments.
- Experience using power tools & machinery.

Benefits

- Starting wage above \$17 per hour
- Can earn upwards of \$46+ per hour with experience.
- Benefits (including Pension, Health and Dental).
- Training and Upgrading

About PCL

Winnipeg's buildings operations support the work of diverse project sites in Manitoba and Northern Ontario. We complete large projects such as sports, entertainment and health care facilities, educational institutions, and office towers, but also excel at smaller, specialized projects that include renovations, restorations, and repairs.

Project

- Manitoba Hydro Slave Falls 7 Bay Sluiceway Structural Rehabilitation
- Location: Slave Falls Generating Station (10km south of Point du Bois)
- Positions begin in March 2025
- Full time hours with allowances for travel, accommodations, and meals as per the current collective agreement
